

NEW DISTANCE LEARNING PROGRAM

Because of the demands of life, many adults in need of education are unable to attend adult learning programs. In an effort to reach out to these adults, the Notre Dame Education Center in South Boston and Project Hope Adult Learner Program in Dorchester are offering adults an alternative – **ONLINE LEARNING**.

This new program offers adults the opportunity to learn **anytime, anywhere**. Courses are taught online via an Internet based program called FirstClass. Now all you need to “go to school” is access to the Internet. Computer labs at NDEC and Project Hope will be available to adults enrolled in this program who do not have home computers. Learners may also use computers at any library.

Courses being offered include

- workplace skills
- listening skills
- writing
- reading
- math

All courses are free of charge. Learners need to have some fluency in English and a basic knowledge of computers in order to enroll in this program.

Interested adults are encouraged to apply by calling
